

E100 First-Class Mail

E120 Priority Mail

Summary E120 describes Priority Mail eligibility, required marking, and associated rates.

1.0 BASIC STANDARDS

Description Priority Mail is First-Class Mail weighing more than 13 ounces and, at the mailer's option, any other mail matter (including regular First-Class Mail) weighing 13 ounces or less. Priority Mail rates are based on zone and weight.

Weight The maximum weight limit is 70 pounds, except for some APO and FPO mail subject to E010 and E030 and for Department of State mail subject to E020.

Reshipment Through merchandise return service, mail received at a post office box address at one postal facility may be reshipped to the addressee at another postal facility by Priority Mail.

Marking The marking "Priority" or "Priority Mail" must be placed prominently on the address side of each piece of Priority Mail. Matter mailed in USPS-provided Priority Mail packaging is subject to Priority Mail rates regardless of how the packaging is reconfigured or how markings may be obliterated. If shipping address labels are used, it is recommended that they contain the Priority Mail service indicator composed of two elements, the service icon and service banner (see Exhibit 1.4):

- The service icon should appear in a 1-inch square in the upper left corner of the shipping label. The letter "P" must be printed inside the 1-inch square and must be 0.75 inches (3/4") or greater. A minimum 3/4-point line must border the 1-inch square.
- The service banner should appear directly below the postage payment area and the service icon, and it should extend across the shipping label. When the service banner is used, the text "USPS PRIORITY MAIL" must be printed in minimum 20-point bold sans serif typeface, uppercase letters, centered within the banner, and bordered above and below by minimum 1-point separator lines. There must be a 1/16-inch clearance above and below the text.
